About me

I am an eager and dedicated student from Norway. I want to continue developing solutions which create real value for people, through their simplicity and trustworthiness.

Technologies

- Python
- Pytorch
- JavaScript
- TypeScript
- React
- React Native
- Figma
- GraphQL
- Django REST
- CSS
- Docker

Achievements

- Reached Norway's national final in chemistry (2016)
- Played 3 years of volleyball at Norway's top level

Experience

- | | |
|----------------------------|--|
| 2021, June - Aug. | Summer Intern, Solution Seeker AS. Developer. Developing a stability classification algorithm for preprocessing oil data for machine learning. |
